# Equalizer plants for the future with SYSPRO MOM

 **EQUALIZER**  
PLANTING YOUR FUTURE

**Equalizer**

Established in: 2000

Company size: 70 dealers

## Equalizer plants for the future with SYSPRO MOM

Since its inception in 2000, Equalizer has been producing world-class seeding and planting machines, specializing in larger/wider equipment. The company specializes in the design, manufacture and global distribution of planting and seeding equipment for grain production. It has more than 70 dealers across Australia, South Africa, Romania, Ukraine and Zambia, with a production plant covering 9300m<sup>2</sup>.

### Their Business Challenge

A long-term SYSPRO client, Equalizer was using another tracking software system, integrated with its SYSPRO solution, to track labor on the production floor. However, the system didn't provide a comprehensive, true indication of the performance of specific work centers and employees.

### SYSPRO Solution

Equalizer implemented SYSPRO's Manufacturing Operations Management (MOM) solution to fully integrate its manufacturing execution system into SYSPRO and provide a single platform to improve performance and boost productivity.

### The Outcome

As a result of the structure and daily scheduling created by SYSPRO MOM, Equalizer has transformed its Fabrication Department from running a week behind to consistently being on schedule, eliminating the previous ripple effect which caused delays in the Metal Finishing and Final Assembly Departments.

“

“We haven't regretted choosing SYSPRO for a single day. I can't imagine being without SYSPRO or SYSPRO MOM.”

– **Theodore Turner**, Systems Director, Equalizer.

## About SYSPRO

SYSPRO is a leading, global Enterprise Resource Planning (ERP) software provider, specializing in key manufacturing and distribution industries. Our Industry-built solutions and services are designed to make things possible.

SYSPRO's ERP solution empowers customers to take the next step – whether it is expanding into new territories, adding new product lines, transforming business processes, or driving innovation. Through our ERP software, customers gain access to solutions, processes, and tools to assist in the management of data for key business insights and informed decision making. The solution is scalable and can be deployed in the cloud, on- premise, or both, and accessed via the web on any device to provide customers with choice and flexibility.

As a trusted advisor, SYSPRO remains focused on the success of partners and customers. With a strong commitment to channel partner growth, SYSPRO customers are backed by a team of global experts that drive maximum value out of IT systems and business solutions. We are committed to addressing the unique needs of our customers, enabling them to easily adapt and remain resilient. Our evolving solutions are aligned with industry trends and leverage emerging technologies that will enable partners and customers to secure a digital future and to gain a competitive advantage.
