Nardone Bros. Maximizes Productivity with Integrated SYSPRO/Nomad Solution

Website/eCommerce solution meets stringent customer requirements

Nardone Bros.

Established in: 1942

Company size: 400 employees

Customer Profile

Since 1942, Nardone Bros. has been committed to making the finest pizza and bringing nutritious, high-quality products to schools and retailers across the United States. With a 152,000-square-foot facility and more than 400 employees, the company services a nationwide customer base.

Their Business Challenge

Nardone Bros. needed to replace an outdated DOS-based system with a fully integrated ERP solution capable of meeting its specialized requirements, including high-level, robust reporting.

The Solution

Nardone Bros. selected SYSPRO 7 and Nomad erpCommerce, a SYSPRO-integrated eCommerce solution from Sniperdyne, an authorized SYSPRO companion solution provider. This all-in-one website and eCommerce shopping cart platform enables seamless sharing of data between SYSPRO and the Nomad eCommerce shopping cart platform.

The Outcome

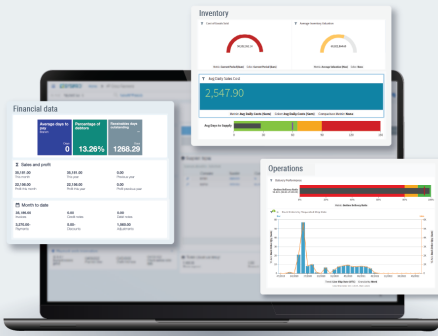

Nardone Bros. is able to easily and comprehensively customize SYSPRO to meet its highly specialized requirements. Flexible, feature-rich and robust, SYSPRO was the ideal fit for the company's needs. Nardone Bros. has 25 users on the integrated SYSPRO 7/Nomad erpCommerce solution.

"I loved the SYSPRO solution from the start. It's exactly what we were looking for, so there was no need to look elsewhere."

– **John Surdy**, Controller, Nardone Bros.

SYSPRO 7 Benefits to Customer

- Meet customer demand for more robust, accurate and timely reporting
- Ability to consistently provide accurate data to internal and external customers
- Ability to easily create a host of new reports and download reports directly to Excel
- Business growth on the back of improved customer service
- Enhanced ability to pivot its business model
- Exceptional after-sales service and support

Nardone Bros. dedicates a large part of its business to the National School Lunch program, and the school districts were demanding more accurate, robust and timely reporting to comply with new reporting laws and regulations.

Ninety percent of schools in the United States use the K12 and ProcessorLink web-based commodity programs which didn't provide the required information. In response, Nardone Bros. partnered with Sniperdyne, a trusted SYSPRO partner, to integrate a website e-commerce tool into its operation.

The ability to drop reports into Excel, make some calculations and complete the task in five minutes instead of several hours has enabled Nardone Bros. to create a host of new reports, which couldn't be done previously. The website has also helped the company grow its business thanks to the positive response from its customers.

In addition to using SYSPRO for all its finance, accounting and commodity operations, Nardone Bros. implemented a full-blown production solution. As a result, SYSPRO will ultimately be used for every facet of the company.

About SYSPRO

SYSPRO is a leading, global Enterprise Resource Planning (ERP) software provider, specializing in key manufacturing and distribution industries. Our Industry-built solutions and services are designed to make things possible.

SYSPRO's ERP solution empowers customers to take the next step – whether it is expanding into new territories, adding new product lines, transforming business processes, or driving innovation. Through our ERP software, customers gain access to solutions, processes, and tools to assist in the management of data for key business insights and informed decision making. The solution is scalable and can be deployed in the cloud, on- premise, or both, and accessed via the web on any device to provide customers with choice and flexibility.

As a trusted advisor, SYSPRO remains focused on the success of partners and customers. With a strong commitment to channel partner growth, SYSPRO customers are backed by a team of global experts that drive maximum value out of IT systems and business solutions. We are committed to addressing the unique needs of our customers, enabling them to easily adapt and remain resilient. Our evolving solutions are aligned with industry trends and leverage emerging technologies that will enable partners and customers to secure a digital future and to gain a competitive advantage.
